STATE ROAD 534 FROM SR 417 TO NOVA ROAD

EARLY 2026

PROJECT DESCRIPTION

The Central Florida Expressway Authority (CFX) is currently designing State Road 534, a 14-mile expressway that will connect State Road 417 near Boggy Creek Road (Orange County) to Nova Road (Osceola County), and also improve access to the Orlando International Airport. SR 534 will be a key corridor in the planned Southern Beltway, a comprehensive system of nearly 60 miles of new expressways that will improve regional connectivity to major thoroughfares including Interstate 4, Florida's Turnpike and State Road 417.

SR 534 is divided into three phases for design and construction. Phases 1, 2 and 3 will be built in segments. The project will feature two lanes in each direction and seven interchanges, including one at Simpson Road, which will be extended from Boggy Creek Road.

The Central Florida Expressway Authority (CFX) is an independent agency of the State of Florida that operates and maintains a regional network of expressways for 3.5 million residents of Brevard, Lake, Orange, Osceola, and Seminole counties and more than 80 million annual visitors to Central Florida. CFX's 125-centerline mile, user-funded system includes 73 interchanges, 14 mainline toll plazas, 5 mainline gantries, 76 ramp toll facilities (includes six ramp gantries) and 365 bridges. On average, more than 1.6 million toll transactions are recorded daily, all of them electronically. CFX operates E-PASS, the first electronic toll collection system in Florida, with more than one million E-PASS accounts. For more information, visit CFXway.com.

STATE ROAD 534

FROM SR 417 TO NOVA ROAD

★ ENVIRONMENTAL STEWARDSHIP

As part of our commitment to environmental stewardship, CFX has worked with local, regional, and state partners, as well as community and environmental stakeholders, on the design of the 1.3-mile segment within the Split Oak Forest Wildlife and Environmental Area.

Artist's Rendering - Subject to change as the design progresses.

★ PROJECT BENEFITS

Meet the projected population growth

Relieve congestion on local roadways

Enhance evacuation and emergency response

Enhance regional connectivity with an expressway option

▲ PROJECT SCHEDULE

2005

Osceola County includes SR 534 in its Comprehensive Plan.

2012

Studies conducted exploring SR 534 corridor.

2014

Florida legislature establishes CFX.

2016

CFX incorporates OCX Master Plan into its plans.

2017

OCX approves Project Environmental Impact Report (PEIR).

2018

CFX completes CF&M study and begins Re-Evaluation study.

2019

Public expresses 61% support for project preferred alternative. CFX board approves.

2023

Design begins for SR 534.
